

Getting “Back to Normal” Is Going to Take All of Our Tools

The COVID-19 vaccine is a great new tool to fight the COVID-19 virus. Using all the tools we have gives us the best chance of getting our families, communities, schools, and workplaces “back to normal” sooner.

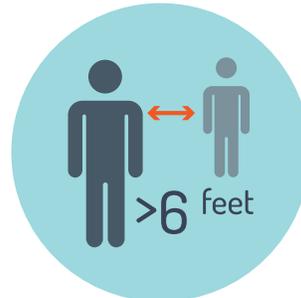

Get vaccinated.

Wear a mask.

Stay 6 feet from others, and avoid crowds.

Wash hands often.

Why should YOU get vaccinated?

To Protect Yourself, Your Coworkers, Your Patients, Your Family, and Your Community

- Building defenses against COVID-19 is a team effort. And **you** are a key part of that defense.
- Getting the COVID-19 vaccine adds **one more layer of protection** for you and your community.

We need your help to build confidence in the COVID-19 vaccine.

Get vaccinated and enroll in the **v-safe** text messaging program to help CDC monitor vaccine safety.

Tell others why you are getting vaccinated and encourage them to get vaccinated.

Stay informed and encourage others to refer to trusted sources for information, such as state and local health departments, your health care provider, and the Centers of Disease Control and Prevention (CDC).
